

Senior Security Strategist and Innovator

Convergence Network Recruitment Team:

I have over 20 years of experience as a visionary leader who delivers cybersecurity, technology, and software solutions that meet or exceeded my client's expectations. I focus on developing high performance teams that support corporate strategic goals and initiatives. My leadership and visionary approach with security, partnered with technology allowed my client's cybersecurity programs to become an area of value.

My passion that drives my professional career is to help every organization secure themselves from cyber threats while being ready for the worst case. Your organizational values really speak to me professionally. I have spent my career building my credentials, professional experience, and leadership to become a IT Security Consultant (Remote).

Leadership, Teamwork, Security Strategies and Technology continue to advance positive change, and I want to ensure that my client's, employee's and data are always protected.
