To whom it may concern,

I am an accomplished R&D Business Leader with a proven track record of leading diverse teams through ambiguity to deliver strong business results in a wide range of operating environments, both domestic and abroad. I believe in the power of partnership to deliver industry leading results. Partnership cross-functionally to set and activate a winning strategy, partnership externally to access the best ideas wherever they may come from, and partnership with team members to deliver their best. My experience spans multiple geographies, disciplines, technical categories, and business models ranging from early-stage startups to large multinationals and special organizational projects.

My twenty-two years of work experience have taught me that agility, empowerment, diversity of thought, combined with exemplary leadership, unlock the collective potential of an organization. By building a culture that thrives on candor and inclusiveness, I develop high-performing teams that deliver clear impact through consumer-centric, business-focused solutions in highly dynamic environments.

I am motivated to bring my capabilities and experience to an organization with a strong bias for growth while challenging the status quo to deliver exceptional consumer solutions. My career interests range from Director level positions in large firms to executive positions within small firms and startups.

To this end, I respectfully submit my resume for your review and look forward to hearing from you soon.

Sincerely,

Christopher J. Field
