Pharmacy Technician & Pharmacy Intern Experience

Walgreens
NY

Brooklyn,

Pharmacy Graduate Intern

March 2018 – Present

- Started as a Pharmacy Intern for Rite Aid and then Walgreens bought the store location in 2018 and I transitioned to a Pharmacy Intern for Walgreens at the same store location.
- Mastered all areas of the pharmacy from the intake of prescriptions to medication dispensing.
- Interacted with healthcare professionals while taking prescriptions over the phone.
- Advised patients on over-the-counter medications to relieve symptoms of common ailments.
- Engaged patients and customers by helping with products and services, answering their questions thoroughly, and resolving customer issues quickly all to ensure a positive customer experience.

- Participated in Flu Shot clinics

Rite Aid

Brooklyn, NY

Pharmacy Intern

January 2016 – March 2018

- Assisted the Pharmacist with daily operations of the pharmacy, such as filling prescriptions, performing prescription data entry, packaging, and labeling medication.
- Completed medication therapy management to assess patient's medications regimens.
- Established close relationships with patients while promoting the services of the pharmacy.
- Checked for outdated medications and discontinued products to maintain an up to date inventory.
- Trained new pharmacy staff on proper pharmacy procedures and customer service approaches to ensure pharmacy responsibilities were being completed correctly and customer needs were met.

RXVIP Concierge

Westbury, NY

Pharmacy Intern Consultant

August 2020- December 2020

- Conducted patient consultations via phone.
- Attained entrepreneurial skills, health coaching skills, communication skills, engagement skills, and the business skills needed to thrive in order to provide a complex medication therapy management to patients with chronic disease.
- Focused on Medicare eligible patients with multiple disease states to provide improved patient outcomes.

Research Experience

- Zebrafish embryo development post exposure to anticonvulsants (2020)
- PH TAU inhibiting cell division (September 2016- May 2018)
- Documented and observed crawfish behavior in a gender-controlled environment (2013-2014)

Notable Skills
