My experience over the past 15 years has given me the tools, knowledge and desire to work in the healthcare industry. I feel compelled to help improve the lives and well-being of others as many close family and friends have been impacted by a medical condition of some kind.

There are a number of reasons why I am an ideal fit for this position. I have strong time management skills and find ways to effectively work with and support my clients across the state. I am continuously on quota, managing and adding to my pipelines. I excel in high pressure situations and enjoy a fast paced environment. For years I've performed demonstrations, conducted appointments, proposed solutions and closed deals with C level executives and other decision makers. Above all, I take remarkably great care of my clients, over communicating, quick responses and putting their needs before mine.

Working in large organizations such as Enterprise and Xerox, I understand and appreciate the importance of internal and external relationships. My tenure at both show I can adapt, thrive and establish a synergistic environment. My ability to connect, collaborate, problem solve and exercise strong morals and work ethic gives those around me a great experience.

Thank you for your consideration,

Daniel J Winick
